

Indian Institute of Technology

It was the efforts of Sir Jogendra Singh, member of the Viceroy's Executive Council that culminated into existence of IITs. He, in 1946, formed a committee to draw blueprint of institutions for higher technical education in the country. This committee headed by Sri N R Sarkar had 22 members.

The committee recommended for setting up of at least four institutions for providing higher technical education in four different regions of the country. The committee strongly felt that such institutes would not only produce undergraduates but they shall also be engaged in research, producing research workers and technical teachers as well. As a result of Sarkar committee recommendation, the first IIT of the country came into existence in 1950 in Hijli, Kharagpur. Today we have seven IITs at :-

➤ [Bombay](#)

➤ [Chennai](#)

➤ [Delhi](#)

➤ [Guwahati](#)

➤ [Kanpur](#)

➤ [Kharagpur](#)

➤ [Roorkee](#)

The IIT system had massive role in distributing the education in general and higher technical education in particular. The IIT system offers enormous impact to this world particularly in the areas of frontline research and development.

Microsoft founder chairman Mr. William Henry Gates once said in his speech- "IIT has certainly taken on a grand vision. Even as an incredibly world-class institution, it keeps challenging itself to renew itself to move to the forefront. And it's hard to think of anything like IIT anywhere in the world. It is a very unique institution". Mr. Gate is a great admirer of IITs.

And to fulfill its vision the IIT system offers entrance examination at both school and college level and select best brains to train who later can make tangible contributions to the society.

Today the corporate sector both in India and abroad shows deep interest in recruiting manpower from these institutions and many big industry giants even collaborate in providing certain kind of training programs. The universities and institutes across the globe show good interest in having academic collaboration with IITs.

Introduction - National Institute of Technology

National Institutes of Technology (NITs) are premier institutes of engineering and technology in India and are the new face of the existing Regional Engineering Colleges (RECs). In the year 2002, the Govt. of India's Ministry of Human Resource Development, decided to upgrade all the 17 existing Regional Engineering Colleges (RECs) as National Institutes of Technology (**NITs**), on the lines of the prestigious [Indian Institutes of Technology \(IITs\)](#). The NITs, have the responsibility of providing high quality education in engineering and technology to produce competent technical manpower for the country.

There are presently 19 of them, the latest being **NIT, Raipur**. The **NITs** are deliberately scattered throughout the country with the idea of having one **NIT** in every major **state of India** to achieve balanced regional development. The NITs are rated just next to the [Indian Institutes of Technology \(IITs\)](#) in terms of quality of education, research and placements.

The Govt. of India is in the process of introducing the [National Institutes of Technology \(NIT\) Bill 2006](#) in parliament to bring these 19 NITs within the purview of the new act after which all the NITs will function as an autonomous technical universities and will be able to decide their own curriculum and functional policies. The bill upon enactment is likely to come into force from the year 2007.

The **NITs** offer B.Tech program in various disciplines of engineering and technology along with research programs leading to M.Tech and Ph.D.

Universities in India

Down the years, the Indian society stood for a greater emphasis on education. Looking back at the past 60 years we can surely say that India has strengthened its higher education system by leaps and bounds. India's rapid progress is evident from the fact that as of now the whole of Indian education scenario consists of 25 Central Universities, 231 State Universities, 23 Private Universities and 103 Deemed Universities.

The Indian government is further assisted by Separate Ministry of Human Resource and Management (MHRD) which is responsible for supervising the functioning of all the universities in India through its chief regulatory body- [Universities Grants Commission \(UGC\)](#). The other government organizations whose contribution for the upliftment of Indian educational scenario is worth mentioning are [All India Council for Technical Education AICTE](#) and [National Assessment and Accreditation Council-NAAC](#).

With a view to bring in all the Indian Universities under one umbrella where the maximum possible information about these universities could be disseminated to the educational community all over the world - the National Network of Education has launched the Universities Hub. To put it briefly, this is envisaged to be an encyclopedia of all the Indian Universities.

State-wise details of Universities as on March 31,2008

Sl. No.	States/UTs	No. of State Universities	No. of Central Universities	No. of Deemed Universities		No. of Private Universities

Private Universities

Though India is home to a large number of universities supported by the Government of India and various State Governments, there are many private universities supported by various bodies and societies.

These Private Universities are known offer wide-ranging cutting-edge programmes in many vocational streams. Each year, thousands of graduates, equipped with latest qualifications enter job- market from such Private varsities.

The degrees of Private universities are awarded by the parent affiliating universities.

Here is a list of all the Private universities in India.

S.No	Name of Private Universities	Year of Establishment
1.	Dr. C.V. Raman University, Kargi Road, Bilaspur, (Chhattisgarh)	2006
2.	MATS University, Arang Kharora Highway, Distt. Raipur, (Chhattisgarh)	2006
3.	Ganpat University, Ganpat Vidyanagar, Mehsana (Gujrat)	2006
4.	Martin Luther Christian University, KIPA Conference Centre, Shillong (Meghalaya)	2005
5.	The Institute of Chartered Financial Analysts of India University, Chaltlang, Aizawal (Mizoram)	2006
6.	The Global Open University, Wokha (Nagaland)	2006
7.	Lovely Professional University, G.T. Road, Near Chehru Railway Bridge, Distt. Kapurthala (Punjab)	2006
8.	Jaipur National University, Jagatpura, Jaipur (Rajasthan)	2007
9.	Eastern Institute for integrated Learning in Management University, Jorethang (Sikkim)	2006
10.	Institute of Chartered Financial Analysts of India (ICFAI), Agartala, (Tripura)	2006
11.	Amity University, Noida, (Uttar Pradesh)	2005
12.	Mohammad Ali Jauhar University, Rampur, (Uttar Pradesh)	2006
13.	Mangalayatan University, Aligarh, (Uttar Pradesh)	2006
14.	Institute of Chartered Financial Analysts of India (ICFAI), Dehradun (Uttarakhand)	2005
15.	University of Patanjali, Patanjali Yogpeeth, Haridwar (Uttarakhand)	2006.

Indian Institutes of Management IIM

Ask any MBA aspirant to name an institute from where he would like to gain management education and pat comes the reply-from one of the Indian Institute of Managements (IIMs), where else? Yes, this is the reputation and recognition that Seven IIMs have earned for themselves across the globe for imparting quality education since their inception. Every student aspiring to go for MBA has IIMs on his/her priority. Only in the case of not being able to make in these institutes that a student start exploring other options.

IIMs, which carry the crown of autonomous management institutions, were established four decades back. Out of the Seven IIMs functioning at present, **IIM-Calcutta** established in the year 1961, was the first one to commence teaching. It collaborated with [MIT Solan School of Management](#) for teaching and training activities. Later on other IIMs came into existence. The Seven different IIMs are located in

➤ [Ahmedabad \(Gujarat\)](#),

➤ [Bangalore \(Karnataka\)](#),

➤ [Kozhikode\(Kerala\)](#),

➤ [Calcutta \(West Bengal\)](#),

➤ [Lucknow\(Uttar Pradesh\)](#)

➤ [Indore\(Madhya Pradesh\)](#) and in

➤ [Shillong \(Meghalaya\)](#).

But all the Seven IIMs enjoy the similar status in the world academic platform irrespective of their age.

The Seven Indian Institutes of Management (IIMs) have also made their position in the elite group of institutions like the IITs, NITs, and Research Institutions like ISRO, CSIR, ICAR etc.

To tap the best talent in the country and to train them to be excellent, IIMs take the route of Common Admission Test (CAT). The test takes place annually across the country in which lakhs of aspirants try their skills. The students shortlisted by them are given such sort of training that wherever they go they leave an impact. The manpower mentored in IIMs deliver excellent leadership to the society.

The rigorous training imparted by IIMs to their students through out the whole working session bear fruit too. At the end of the session, companies from across the globe come to their campus and offer hefty pay-packets. This is not all. Universities and Institutes of different countries are always keen to have a tie-up or academic collaboration with IIMs. Big industry giants too take pride in collaborating with them for providing training programmes to cater to the industry needs.

The [National Network of Education \(NNE\)](#) provides a unique platform for all the seven IIMs under its IIM Hub. It also provides all the information related to entrance examination conducted by IIMs. The full-blossomed IIMs are idol of inspiration for millions of students and educational community not only in India but also abroad.

The [National Network of Education \(NNE\)](#) provides a unique platform for all the seven IIMs under its IIM Hub. It also provides all the information related to entrance examination conducted by IIMs. The full-blossomed IIMs are idol of inspiration for millions of students and educational community not only in India but also abroad. The National Network of Education (NNE) is soon going to provide a dedicated BUSINESS BUZZ section which will regularly furnish the developments and achievements of IIMs and will bring a round up of campus buzz. This will be an interesting feature for career aspirants, academicians and others. .

Indian Institute of Information Technology (IIIT)

With the arrival of Alvin Toffler's Third Wave- the Wave of Knowledge, the Age wherein Knowledge is Power, it becomes imperative and critical for an ambitious society to embark on producing intellectual capital to sustain itself in a commanding fashion.

Knowledge- end result of information- needs to be disseminated to the nook and corner of the country to have an all pervasive impact. Dissemination of knowledge and utilization of the same needs a well developed technological and management system.

Keep this in focus and to keep pace with the developed countries of the world, India has come up with several institute of excellence involved in grooming IT manpower.

Some of the premier institutes of Information Technology are-

- [IIIT Allahabad](#)
- [IIIT Bangalore](#)
- [IIITDM Jabalpur](#)
- [IIITM Gwalior](#)
- [IIITM Kerala](#)
- [IIIT Hyderabad](#)

Most of the institutes mentioned above provide a graduate course with B.Tech degree whereas some of them offer only the post graduate courses and the M.Tech degrees.

An All India Entrance Examination is to be cleared to get into the institutes imparting the B.Tech degree, whereas for admission to the post graduate courses, the institutes conduct their exclusive entrance test/interview.

With reference to all the details about IIITs in India, it must be mentioned that a new **IIIT Kancheepuram** is about to be established which will have almost equal status like that of DAIICT, Gandhinagar, and LNMIIT, Jaipur. Being on the same league with IIIT-Hyderabad, this institute will focus on IT education.

Apex Bodies of India

When the **National Network of Education (NNE)** thought of a common platform for the foremost centres of excellence and governing bodies spread across the country, the task not only seemed challenging but also formidable. As we went ahead with the plan, we experienced both. Probably, the **NNE** is the first education portal of its kind in the country to have covered all the existing 39 Apex Bodies. You name it and you will find it in the list.

How can the Apex Bodies be of immense help to you?

As the Government of India funds these Apex Bodies, it is naturally that all major policies pertaining to education percolate through these apex bodies. They formulate guidelines, dos and don'ts, etc. For instance, if you are curious to know about **DOEACC** (Department of Electronic Accreditation of Computer Courses), which is engaged in updating global industry relevant to computer education, you may in all probability not get the information readily available. NNE help furnishes you with all the information.

Furthermore, you may even want to know about its location and function, its *modus operandi*, address and phone numbers ... We have in-depth information on everything, on each of these centres.
